

DON'T SETTLE FOR IMITATIONS! BENDA BRUSH IS THE ORIGINAL DISPOSABLE APPLICATOR BRUSH. MANUFACTURED WITH PRECISION IN THE USA!

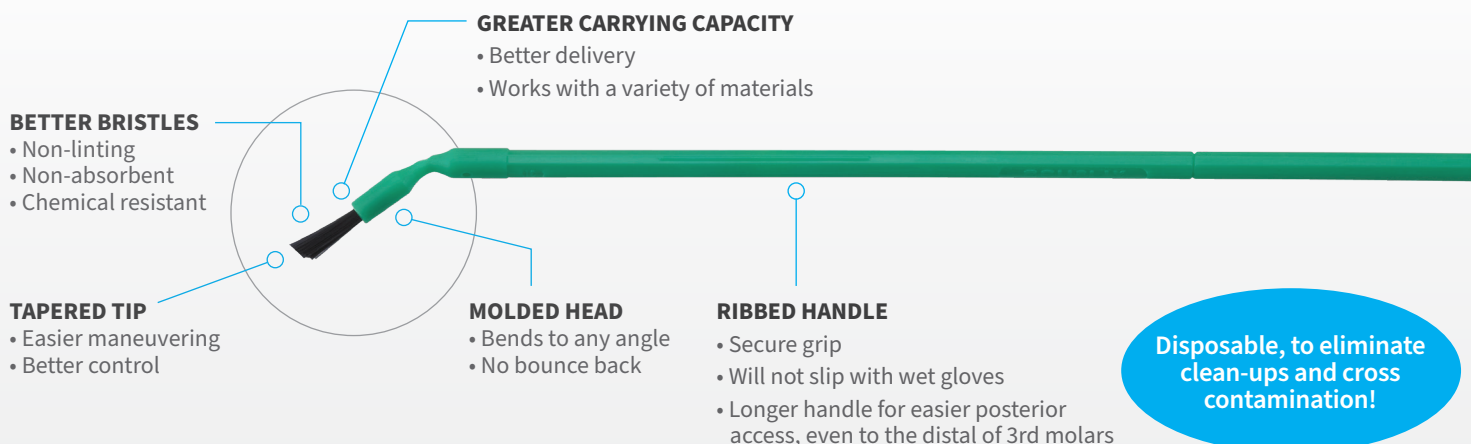

THE PREFERRED CHOICE OF DENTAL PROFESSIONALS WORLDWIDE!

Today, it's hard to imagine a dental office without one-piece, bendable head, disposable applicators, but in the 80's they were just not available! This was a problem we knew we could fix. In 1989, we introduced our first one-piece, bendable head, disposable Benda Brush, which revolutionized the dental world, making it easier for clinicians to apply etchants, bonding agents, sealants, desensitizers, adhesives, whitening agents, and so much more.

Benda Brushes were designed BY a dentist, FOR dentists, and made specifically for use in your dental office. They have chemical-resistant fibers that hold up to the harshest dental materials. They allow for greater carrying capacity and better smoothing and spreading action. Available in many styles and colors.

The original and the best!
Trusted by dental professionals
since 1989.

Disposable, to eliminate
clean-ups and cross
contamination!

Bendable head bends to any angle and stays bent. Easy access to small, tight spaces.

ORDERING INFORMATION
