LolliCaine®
20% Benzocaine Topical Anesthetic

A **CLEANER** APPROACH TO **TOPICAL ANESTHETIC**

Rapid Onset. Great Flavors. No Cross-Contamination.

Patients love the taste and quick relief!

LOLLICAINE IS A RAPID ONSET 20% BENZOCAINE GEL THAT TASTES GREAT!

LolliCaine's fast acting formulation provides quick, temporary relief for patients. Ideal for use with needles during local injections or sharp instruments during periodontal curettage, scaling, root planning and other dental procedures. **Available in four great-tasting DYE-FREE flavors: Bubble Gum, Mint, Piña Colada, and Cherry**, with no bitter aftertaste.

NO MORE MESSY, UNSANITARY JARS!

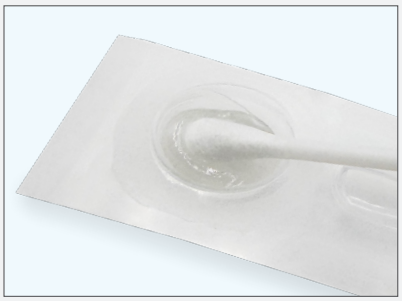
WHAT MAKES LOLLICAINE UNIQUE:

- Easier dosage control with patented LolliPack®, single patient packaging
- Unit-dose eliminates waste and cross-contamination
- Patients love the four great tasting flavors with no bitter aftertaste
- Swab included for convenience
- Formulated with no added dyes
- Unit-dose packaging doubles as "take-home" treatment for post-op discomfort

LolliCaine®

20% Benzocaine Topical Anesthetic

EASIER AND FASTER WITH NO MESS OR WASTE.



SO EASY YOUR PATIENTS CAN DO IT THEMSELVES.

IT'S THE PERFECT TAKE-HOME PACK!

Just dip, apply and toss! LolliCaine has the right amount for a single patient. Onset is less than a minute with 15 min. duration. **Easy cleanup, with no leftover gel!**

IDEAL APPLICATIONS

- Prior to local anesthetic injection
- On denture sores
- During rubber dam clamp placement
- During deep scaling
- **Home care relief:** oral lesions, prosthetics, orthodontic appliances and various dental procedure discomforts

ALLERGY CONCERNS?
