

SuperMixer™

Automix 1:1 Mixing Nozzles

New high-efficiency mixers for less waste!

Introducing the Centrix SuperMixer™! The next-generation high performance mixing nozzles have an all-new mixing technology, easier-to-use design and up-to-33% reduced material waste!

Better mixing. Complete confidence.

SuperMixers are designed for 1:1 cartridge systems, providing more complete and more consistent mixing of any viscosity dental material, including core buildup, crown and bridge, gingival retraction and impression.

Reduce waste. More profitable.

Best of all, SuperMixer provides even less waste, with 26-33% material savings, depending on the product. And, reduced waste means more material for billable procedures.

Easier to use.

The new mixer technology eliminates streaks and provides more complete mixing of dental materials for superior consistency and clinical performance, compared to the old-style nozzles. You'll find it much easier to access all areas of the mouth for any procedure.

SuperMixer™

Even, complete mixing of material

Better mixing results

Traditional Mixer

Uneven, striated, incomplete mixing

Automix 1:1 Mixing Nozzles

So much shorter!

NEW SuperMixer™ Design

Our new shorter SuperMixer has more mixing surfaces to efficiently blend mixed materials, which greatly improves the quality and texture.

Traditional (spiral mixer design)

Reduce waste, save time and increase profits for your practice.

SuperMixer™ Mixing Nozzle	Typical Applications	Waste Reduction (avg.) ¹	Additional Uses (avg.) ²	2016 Billable Fees ³	Incremental Profits
● Blue Hub	Temp. Crown & Bridge	27%	12	\$139	\$1,668
● Yellow Hub	Core Build-up	27%	11	\$122	\$1,342
● Pink Hub	Retraction	33%	10	n/a	n/a
● Teal Hub	Impression Making	26%	1*	n/a	n/a

Waste reduction results in real profit increases. SuperMixer nozzles enable users to get many more uses of every type of material tested, resulting in significant increases in billable fees and increased profits. Your practice will reduce waste, save time and increase profits with Centrix SuperMixer™ Mixing Nozzles.
